WORK EXPERIENCE

Today October 2019	Software Engineer, BOOKING.COM TRANSPORT LTD, Manchester, United Kingdom I'm part of the Data Tooling team that builds tooling for other teams to improve the User Experience in the website and also Data Quality. We work using Kanban, including a session of Code Review in order to maintain code quality higher as possible. The developing is done using TDD and applying , where applicable, the Golden Signals. <div>Java EE Scala Rust Node.js Apache Kafka Spring Boot Maven Gradle GoCD AWS Opentracing Prometheus IntelliJ Idea Visual Studio Code</div>
September 2019 May 2017	IT Consultant Full Stack Developer, TMTAMY REPLY S.R.L., Milan, Italy I had mainly the role of Full Stack Developer building Web Apps with Angular framework - for the Front End - and the Spring framework - for the Back End, following the entire lifecycle of the software engineering - from requirements gathering with customers to the final delivery. During the period spent in this company I gained some skills as Data Engineer. <div>Angular Node.js Java EE Spring Boot Maven Oracle DB Oracle Weblogic Visual Studio Code Eclipse Cloudera</div>
February 2017 May 2017	Analyst, ACCENTURE S.P.A., Milan, Italy In the experience in this company I had the role of Junior PMO.
